PRINTER DISCLAIMER

If the printer being used is not on the TABQUIK[®] recommended printer list we cannot guarantee its performance. We do not have the opportunity to test all printers for performance and quality and, therefore, we cannot guarantee your label printout against smears, smudges, ink scratching off or quality of barcode readability. The label stock has not been tested with the printer. Using certain label stock with this printer may lead to labels peeling off in the printer, or how the label actually prints out, or void the printer manufacturer's warranty.
